SKILLS

Languages: C++, Python, Bash Scripting

Frameworks/Libraries: HTML, NIST, Zero Trust Security Model, OWASP Top 10

Tools/Platforms: Wireshark, Nmap, Metasploit, Burp Suit

Soft Skills: Problem-Solving, Tenacious, Teamwork, Adaptability, Quick Learner

PROJECTS

Serverless Document Translation

June 2024 - August 2024

- Developed **document translation** that convert document or text into different language.
- Developed using AWS lambda, Amazon S3, Amazon translation, python, Postman for API
- Increased user engagement through personalized recommendations and an interactive platform.

Grocery Website

August 2022 - September 2022

Email: tanmaynadar@gmail.com

- Designed an online grocery shopping website by providing a user-friendly and efficient platform.
- Built with HTML, CSS, and JavaScript, leveraging Bootstrap for responsive layouts, local storage for a dynamic **shopping cart**, and JavaScript event listeners for real-time product search and filtering.
- Improved accessibility and convenience, allowing users to browse and shop for groceries effortlessly across different devices.

TRAINING
